

Tohoku Journal of Natural Disaster Science

Volume 49

March, 2013

ARTICLES

	Page
A gale structure of the typhoon201217 that we observed with L-band radar	Akira WATANABE 1
Experience information on 1932-explosion of Akita-Komagatake Volcano	Choro KITSUNEZAKI 5
Spatiotemporal variation of seismicity near the Moriyoshi-zan volcano in the Akita Prefecture	Masahiro KOSUGA, Kazuma MASUKAWA, Masaaki CHIBA and Kazutoshi WATANABE 11
Water level and temperature change of hot springs and induced earthquakes by the 2011 off the Pacific coast of Tohoku earthquake	Takayuki KAWABE and Keiji NAKANO 17
Long-term seismic activity prior to the 2011 Mw9.0 Tohoku-Oki earthquake	Tamao SATO, Shinya HIRATSUKA and Jim MORI 23
A high density questionnaire seismic intensity survey in Oshu City of Iwate Prefecture, for the aftershock of the 2011 off the Pacific coast of Tohoku earthquake	Hidekazu YAMAMOTO, Tsuyoshi SAITO, Ryohei SAITO and Yoko UBE 29
An ultra high density questionnaire seismic intensity survey in Ichinoseki City, Iwate Prefecture of the 2011 off the Pacific coast of Tohoku earthquake and the aftershock	Hidekazu YAMAMOTO, Tsuyoshi SAITO, Masafumi OKAWARA, Yoko UBE, Ryohei SAITO, Kinya ICHINOHE and Kaoru KIKUCHI 35
Microtremor observations in Ichinoseki City, Iwate Prefecture	Hidekazu YAMAMOTO, Tsuyoshi SAITO, Yoko UBE and Tomohiro FUJINE 41
Estimation of shallow S-wave velocity structure in central Maesawa, Oshu City, Iwate Prefecture by small size array observation of micro tremors	Megumi TAKAKURA, Hidekazu YAMAMOTO and Tsuyoshi SAITO 47
Comparison of seismic intensity by questionnaire survey for Koriyama and Sukagawa due to the 2011 off the Pacific coast of Tohoku earthquake of ground properties.....	Susumu NAKAMURA, Yuto HORI and Yuuta ATSUGASE 53
Evaluation of relative displacement for seismic safety evaluation of water facility	Yoshiaki ARIGA, Takasi ISHIKAWA and Norikazu TARUI 57
Difference of ground motion characteristics and nonlinear response of building structures based on the observed earthquake data during the 2011 Tohoku earthquake	Ryota TAZUKE, Masato MOTOSAKA and Hidefumi YOSHIDA 63
Natural frequency change of low rise buildings in Sendai by the 2011 Tohoku earthquake	Eita MITSUYA, Susumu OHNO and Masato MOTOSAKA 69
Study on validity and problem of seismic diagnosis based on the survey about damage to school buildings by off-the-Pacific of Tohoku earthquake	Atsushi SUZUKI, Tomoyuki HATANAKA, Tomomi FUJITA, Naoki FUNAKI, Masayuki HANDOU and Reiji TANAKA 75
Survey and microtremor measurement of damaged steel gymnasium due to the 2011 Tohoku earthquake	Tomoyuki HATANAKA, Naoki FUNAKI, Tomomi FUJITA, Reiji TANAKA and Akenori SHIBATA 81
Wind resistant design of 'Rikuzentakata's Pine Tree of Hope'	Yasushi UEMATSU, Nam-Seok KIM and Yumi IIDA 85
Influence over water quality due to nutrient loading in the Royal Range of the Andes	Evelin HUMEREZ and Makoto UMEDA 91
Case study: Wind impact on shoreline change in front of a river mouth in lakes	Gabriela Sossa LEDEZMA and Hitoshi TANAKA 97
Spatial distribution of sediment composition in Lake Izunuma	Shinya NAKADA, Makoto UMEDA and Tetsuro SHIMADA 103
Observation of algae biomass in shallow waters of the upstream portion of the Kamafusa Dam	Hiroto SATO, Makoto UMEDA and Fuminori KIMURA 109
Effects of mudflow from the LUSI mud volcano on Porong River, Indonesia	Shuichi KURE, Yuriko TAKEDA, Keiko UDO, Makoto UMEDA, Akira MANO and Hitoshi TANAKA 115
Assessment of the relationship between the concentration of phosphorus flowing into reservoirs and land use in Japan	Ryo KUWAHARA and Makoto UMEDA 121
Evaluation of relationship between water disaster and climate change in Asia monsoon area	Tsukasa YOSHIDA, Yuri ESAKA and Seiki KAWAGOE 127
Evaluation of relationship between snow condition and water area in Fukushima Prefecture	Mitsuhiro NAKAMURA, Yuya SATO and Seiki KAWAGOE 133
Characteristic of exchange of salt and fresh water in Iwaki River mouth	Mikio SASAKI, Hitoshi TANAKA and Makoto UMEDA 139
Investigating variability and regionality of Japanese rainfall-runoff processes	Hikaru NISHIYAMA and Yoshiyuki YOKOO 145
Introducing Intensity-Duration-Frequency (IDF) curve as an alternative of current Japanese flood frequency analysis	Shoma RYUZAKI and Yoshiyuki YOKOO 151
Exploring scaling characteristics of watershed topography for rainfall-runoff modeling	Yuki MIURA, Rie KANNO and Yoshiyuki YOKOO 157
Estimating watershed-scale storage by hydrograph separation and storage-runoff relationship	Satoshi OKAZAKI, Syuhei KOBAYASHI and Yoshiyuki YOKOO 163
Hydraulic experiments about flushing of sand deposition on gates of diversion dams	Kunihiko HAMAGAMI and Hajime MIWA 169
Relationship between wind characteristic and sand flux over dunes.....	Keishi OKAMURA, Keiko UDO, Shota MITSUSHIO and Akira MANO 175
A prediction of turbulence property in steep slope flow with vegetation by k- ϵ model.....	Yoshinari HIRATA, Akira MANO, Keiko UDO and Shuichi KURE 181
Estimation of tsunami arrival time on the north-eastern coast of Japan	Min ROH, Mohammad Bagus ADITYAWAN and Hitoshi TANAKA 187
Numerical model study on the effect of the canal in reducing tsunami energy	Nguyen Xuan DAO, Mohammad Bagus ADITYAWAN and Hitoshi TANAKA 193
Characteristics of black pine tree based on field tests in the inundation area of the 2011 Tohoku earthquake tsunami	Hideo MATSUTOMI, Takeshi HOSHI, Kenji HARADA and Genki KETTOKU 199
Experiments on tsunami fluid force acting on a RC building	Hideo MATSUTOMI, Masahiro SAITOH and Genki KETTOKU 205
Breaching of sandy coast due to the 2011 tsunami	Hitoshi TANAKA, Akira MANO and Keiko UDO 213
Analysis of the effect of external force to the revetment due to the Tohoku-Pacific Ocean earthquake and tsunami	Tsuyoshi NAGASAWA and Hitoshi TANAKA 219
Questionnaire survey on tsunami and earthquake of self-governing bodies of the coastal cities and towns along Akita Prefecture	Mitsuo NOGOSHI and Koji SATO 225
Study on countermeasures against distant tsunami for disaster prevention plan.....	Yoshi ABE, Suppasri ANAWAT, Yo FUKUTANI and Fumihiko IMAMURA 231
The local residents awareness investigation in the heavy rain disaster of the October, 1999 Kindaichi, Ninohe-City area	Michiya IRASAWA and Ayumu TAKAHASHI 235
Approaches for educational material due to learning the historical earthquake in Akita – Part 2 A case study of the 1914 Akita Senboku earthquake –	Toshihiko MIZUTA 241
School supporting project for disaster prevention in Tsuruoka City, Yamagata Prefecture	Yoshiyuki MURAYAMA, Keiichiro OGATA and Koichi YAMAGUCHI 247
Promotion of indoor countermeasure against earthquakes at School of Engineering, Tohoku University	Makoto HOMMA, Fumio FUJITA and Masato MOTOSAKA 251
