

Tohoku Journal of Natural Disaster Science

Volume 59

March, 2023

ARTICLES

| | Page |
|---|------|
| Mechanical Study of Triggered Earthquakes Caused by the 2011 Tohoku-Oki Earthquake ... Daichi WATANABE et al. | 1 |
| Strong Motion Records Observed in Buildings During 2019-2022 Earthquakes in Tohoku Region Susumu OHNO, Kazuya MITSUJI and Yuta SASANOMA | 7 |
| Depth Estimate Using P-wave Later Phase from Pacific Offshore Earthquakes of Tohoku District ... Masahiro KOSUGA | 13 |
| The 1983 Hokkaido-Nansei-Oki Earthquake for Aomori Prefecture ... Hiroshi KAGAMI and Toshihiko MIZUTA | 19 |
| CMT Inversion for Earthquakes in and Around Aomori Prefecture, Northern Honshu, Japan, Using Three-Dimensional Heterogeneous Velocity Structure Jin MASUNAGA et al. | 25 |
| Study on Impact Force of Tsunami Drifting Objects Using Load Cells Riku TAKAHASHI, Noritoshi SAITO and Kazuya WATANABE | 31 |
| Characteristics of Event Deposits in Sekine-hama, Shimokita Peninsula ... Yuta KIMURA, Rina OKADA and Koji UMEDA | 37 |
| Research on Tsunami Evacuation Considering Regional Conditions Based on Evacuation Behavior Analysis ... Shin-ya HORIAI, Ikumi TACHIHANNA, Kanta ENDO, Shinsuke TAKASE, Masaya KATO and Yasushi TAKEYAMA | 41 |
| Hydraulic Model Tests of Tsunami Force Acting on Oil Tanks Naofumi TERAMOTO, Wei DING, Yasushi UEMATSU and Akihiko OBATA | 45 |
| Froude Number and Drag Coefficient in the Evaluation of Drag Force Due to a Tsunami Inundation Flow Hideo MATSUTOMI | 51 |
| Fundamental Study of Fluid Forces Acting on Structures Ikumi TACHIHANNA, Kanta ENDO, Shinya HORIAI, Shinsuke TAKASE and Masaya KATO | 57 |
| Study of the Influence of Vegetation and Driftwood in the River Channel Soshi OMORI, Yoshitaka JIKEN, Noritoshi SAITO and Kazuya WATANABE | 63 |
| Study on the Behavior of the Sandbar Using UAV and Riverbed Fluctuations in Babame River Yoshitaka JIKEN, Noritoshi SAITO and Kazuya WATANABE | 69 |
| Hydraulic Experiment on the Bark Peeling of Driftwood Generated by Heavy Rainfall Kaito TAKAYA, Yoshitaka JIKEN, Noritoshi SAITO and Kazuya WATANABE | 75 |
| Report on Survey of Flood Damage of August 2022 in Ichinohe Town... Yuriko MATSUBAYASHI and Norihiko KONNO | 81 |
| Damage Caused by the Flood Generated to Heavy Rain at Northern Tohoku Region in August 2022 Kazuya WATANABE and Yuriko MATSUBAYASHI | 87 |
| Investigation and Research on Downpour Disaster in August, 2022 in Aomori Prefecture Mikio SASAKI, Takahiro TAKEUCHI, Shinsuke TAKASE and Yuta MITOBE | 93 |
| Development of Seismic and Tsunami Measure Technology by Using Cushioning Materials Yoshiaki ARIGA | 99 |
| A Fundamental Study on Collapsed Carports During Snowy Earthquake ... Shunichi KATAOKA and Erina KISHI | 105 |
| Vibration Response Characteristics of Multi Story Frame Attached with Liquid Damper ... Kodai MIZUMA et al. | 111 |
| Vibration Response Characteristics of Multi Story Frame Attached with Liquid Damper ... KKentarou KOJIMA et al. | 117 |
| Seismic Response of a Building Composed of Several Blocks of Different Construction Ages Tomoki MIZUNO and Shunichi KATAOKA | 123 |
| Stresses Acting on the Roof Bearing of Gymnasium Structure Subjected to Earthquake Motion in two Directions Sayaka ABE, Tomomi FUJITA, Naoki FUNAKI and Masayuki HANDOU | 129 |
| Evacuation Drill at a Visitor Facility and its Consideration from the Perspective of Tourism Risk/Crisis Management Shuji YAMADA | 135 |
| Age Structure of Post-Disaster Inter-Prefectural Migration Makoto OKUMURA and Hatsune MOTOI | 141 |
| Tracking of the 1983 Nihonkai-Chubu Earthquake Disaster by Newspaper Articles Toshihiko MIZUTA and Hiroshi KAGAMI | 145 |

Tohoku Research Group for Natural Disaster Science
